Le déserteur

Monsieur le Président
Je vous fais une lettre
Que vous lirez peut-être
Si vous avez le temps
Je viens de recevoir
Mes papiers militaires
Pour partir à la guerre
Avant mercredi soir
Monsieur le Président
Je ne veux pas la faire
Je ne suis pas sur terre
Pour tuer des pauvres gens
....

The deserter

*Mr. President
I'm writing you a letter
That you may read
If you have time
I just received
My military paper
To go to war
Before Wednesday night
Mr. President
I don't want to do it
I am not on earth
To kill poor people
....*

Boris Vian 1954

This song was banned from
Radio Stations until the end of
the Algeria war in 1962

What can be done from outside ?

- Several offers for scientists from Ukraine and Russia and Belarus:
 - [Arnold Fellowship in Physics and Mathematics](#)
 - The London Institute is hiring five Arnold Fellows from Russia, Ukraine and Belarus in theoretical physics and mathematics.
 - Arnold Fellows are named after the Ukrainian-born Russian mathematician and physicist Vladimir Arnold. They are for Russian, Ukrainian and Belarusian nationals to move to London and take up research posts at the London Institute for Mathematical Sciences. The posts are full-time positions and last three years.
 - [Philipp Schwartz-Initiative](#) of Humboldt Foundation
 - Due to his Jewish faith, the Austrian pathologist Philipp Schwartz lost his professorship in Frankfurt in 1933. The programme allows researchers who are subject to significant and continuous personal threat in their country of origin to continue their work at German universities and research institutions.
 - Helmholtz [Support services for refugees](#)
 - At Helmholtz, we have also relaunched an initiative with which we enabled refugees from the Syrian war to enter scientific or science-related employment at Helmholtz back in 2015. An initiative that is now open to refugees from Ukraine, Russia and Belarus. This, too, is supported by our Centers without bureaucratic hurdles.

Publication strategies of CERN experiments

- Discussions within the experiments still ongoing:
 - no decision yet taken (this week is CERN council meeting).
 - from CMS we heard, that there is a slight preference for C, $C > B > A$
 - C: Affiliated with an institute associated with CERN
 - B: full affiliation, but with text against the war
 - A: Affiliated with an institute of the Russian Federation
- How is the discussion in other experiments at LHC?
