Science4Peace Forum

- Science4Peace Forum: <https://science4peace.com/> started as discussion forum of Scientists after 24. Feb 2022, where all official contacts from some science institutions to Russian and Belorussian institutes and scientists were put on hold. At DESY, “*new publications with participation of Russian and Belarusian institutions will be suspended*” and “*DESY employees will not participate in conferences .. where speakers from Russian or Belarusian institutes are announced.*”
- This made it necessary to establish an independent Forum, where we can still communicate and talk.
- The Science4Peace Forum has launched a petition “[Stop the escalation Sprial](#)” to research institutions protesting against the sometimes to harsh restrictions in science-communication
- In Dec 2022 the “[No first use—never any use of nuclear weapons](#)” appeal together with 14 Nobel laureates was launched and is open for signatures
